Working

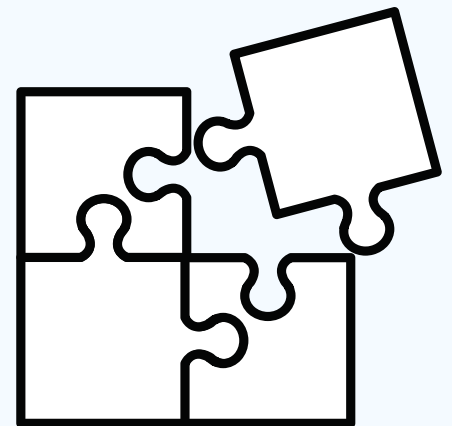

Exambash working system is separated into two parts. First part is - **Teacher's Section** and Second Part is - **Student's Section**. These two parts connects each other through internet.

What is special for parents in this system?

The answer is - **Parental Lock & Unlock** feature. During two valuable years of 11th & 12th, we **lock** this tablet for other android applications like Whats app, Youtube, Instagram, Facebook, etc. Hence students can not install any other android application except **Exambash**.

After two years, we will help you to unlock this tablet. You can then install other applications. This locking/unlocking facility is given in order to avoid distractin of students from their study during their academic sessions. This unique feature makes this Tab unique among the available tabs in the market. Isn't it interesting to you?

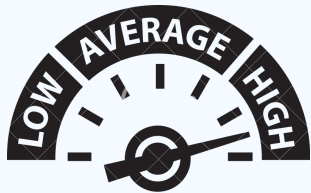

Students, generally needs Laptop/Tablet for their higher studies after 12. Your ward can use this tablet at that time as well. Hence yours and eventually your ward gets double benefits from this deal.
